Republicans Have Straight Electoral Tickets in Forty-Four of the Forty-Five States While the Democrats Have Only in Fifteen—Fusion Has Been Accomplished in All the Rest.

The Democrats have a straight electoral ticket in only 15 of the states, having effected a fusion with the Populists and silver Republicans in 30 of the others. In some cases the Populists and silver Republicans endorsed the Democratic electoral ticket, but in others concessions of electors were made to them for their support of Bryan and Sewall. THREE WERE DROWNED.

Surrey With Women and Children Fell Into the River.

STEVENSVILLE, O., Nov. 2.—Miss Mary Purcell and two children of Mrs. John Snyder of this city were drowned in the Ohio river Saturday afternoon, and only one of the bodies has been recovered.

While Mrs. Snyder, Miss Purcell and Mrs. Snyder's two children, Raymond and Mary, were crossing the river on the ferryboat Sherrard the horse attached to their surrey became unmanageable and backed through the ropes into the river.

The ferryman and his assistant attempted their rescue, but Mrs. Snyder was the only one of the party saved, the children and Miss Purcell going to the bottom. There was a swift current at the point where the accident occurred and despite the efforts of the men with grappling hooks only one body was recovered.

Mrs. Snyder was taken from the river unconscious, but was resuscitated after many efforts. The horse was drowned and with the surrey, floated off down the river.

REFUSES TO TAKE MEDICINE.

The Child Is Sick, but the Law Does Not Reach the Case.

COLUMBUS, O., Nov. 2.—The state board of health received a telegram from a physician at Mentor, Lake county, stating that a little sick girl with fever, having a temperature of 104 degrees refused to take medicine because her Sunday school teacher, who claims to be a divine healer, told the child that God would cure her without medicine.

The physician desired to know if the state health authorities could do something in the case. Dr. Probst sent word back that the state board could do nothing, as there was no law compelling a sick person to take medicine. The case was referred to the Mentor health officer to act, in case it was a contagious disease.

LEGG PLEADED NOT GUILTY.

He Says He Did Not Default and Is Released on Bond.

WAVERLY, O., Nov. 2.—George W. Legg, the alleged defaulting county treasurer, who was returned here last week, was arraigned in court Saturday, pleaded not guilty and at 5 o'clock in the evening was set at liberty on a bond of \$3,000, signed by the required number of property holders.

Legg has refused to see anybody in jail and vouchsafed but a single statement, that he was surprised at the amount of the shortage. He left in a buggy late in the evening for his old country home at Latham. His bondsmen intend to refuse to make good the shortage unless compelled to do so by the courts.

Labor Organization Disbanded.

CHICAGO, Nov. 2.—The Chicago trades and labor assembly, which has since 1886, been one of the strongest factors in trades unionism in the city, was formally disbanded yesterday afternoon in pursuance of a resolution passed a month ago. The action was due to friction among the members. A meeting will be held Wednesday, looking to the reorganization under the auspices of the Federation of Labor.

HUMAN SLAUGHTER.

One Hundred and Sixty Thousand Armenians Slain.

EXTENT OF TURKISH OUTRAGES.

Powers Unable to Agree Is Why Abdul Hamid Is Permitted to Continue His Bloody Work—The Division of Territory the Bone of Contention—Signs of Approaching War.

PARIS, Nov. 2.—It has been estimated that within the past year and a half, 160,000 Christians have been slaughtered by the Turks. This is a conservative estimate of the total of the atrocities instigated by the wretched monster governing the Ottoman empire.

In view of this it has become a problem to the average mind why the great powers of Europe, with more than enough force at their command, allow the massacres to go on. No one doubts their ability to knock the sultan off the throne in 24 hours after they have agreed to do it, but every one knows that the reason the agreement is not arrived at is the fear of a general European war over the territorial partition of the Turkish empire. American people naturally fail to understand the force of this obstacle, but in the intricate game of European politics it is the dominating factor, greater than the rescue of a whole race of people from the swords of butchers.

The leading statesmen of Great Britain, France, Germany, Russia, Austria and Italy, could they come to an agreement as to a division of the Ottoman empire, would set to work the next moment to depose the sultan and crush into small pieces the dynasty which has heaped so much shame upon the close of the 19th century. But this agreement, seemingly, is still some distance off. A few of the powers above mentioned want pretty nearly everything now ruled over by the Turk, leaving only a few crumbs for the others. Naturally, the latter refuse to accept these terms, the others are obdurate, the agreement hangs fire and the massacres go on.

It is the peculiar distribution of the Turkish domain in Europe and Asia Minor that makes it a more difficult task to divide it. All of the powers above named have territory adjacent to some part of the Ottoman empire, and, owing to the proximity of one to the other, their claims on certain territories conflict.

Russia is the leading obstacle to an agreement, according to a member of the diplomatic corps having access to certain information at the foreign office. It is well known that the czar and his advisers claim that for the present the integrity of Turkey is a political necessity for the peace of Europe, and that its disintegration would be the signal for a general war a dozen times more disastrous to life and property than the massacres in Armenia. The motives of humanity prompting this claim are questioned, for Russia is rapidly strengthening her navy and army, and every delay she gains makes her more formidable and stronger to enforce her wishes upon the others.

As a matter of fact, Russia is scheming to obtain the most valuable portion of Turkey in Asia Minor, or fully two-thirds of the whole of the Ottoman empire. If her ministers have their way they will draw a line from the intersection of Persia, Russia and Turkey, across Armenia to the Taurus mountains, marking the northern boundary of Syria, then down to the seaport town of Tarsus, on the Mediterranean, taking in all that territory bounded by the Black sea, the Mediterranean and the Aegean sea.

Not only this, but they want to control the Sea of Marmora, the Dardanelles and the Bosphorus, by taking in a slice of European Turkey, including Constantinople. This would give them absolute control of the whole of the Black sea and afford a waterway through the Bosphorus to the Mediterranean.

Russia does not seem to care for Syria and that part of Asiatic Turkey running along the Red sea, and the eastern side of Arabia along the Persian gulf. Neither have her ministers seemed solicitous about European Turkey, except as before mentioned, a narrow slice of the coast line from the Dardanelles to the Bosphorus. But these sections are of small moment compared with those she does want and is plotting for. From the Persian line on the east to the Aegean sea on the west, Asiatic Turkey is some 1,000 miles broad, and contains all the most fertile cities and provinces in addition to the three railroads. One of these runs from Scutari, just opposite Constantinople, down to Angora, 300 miles away. Another extends from Smyrna to Adelia, about 250 miles, while the third runs from Aiden, half way between Smyrna and Adelia, up to Kanahissan, in the interior, a distance of 200 miles. All the rest of Asiatic Turkey is in a primitive state as far as traveling facilities are concerned.

France is satisfied that Russia should get what it wants, providing that she is given the whole of Syria, bounded on the north by the Taurus mountains, on the east by the Euphrates river and on the south by Arabia and as much of the territory running along the Red sea as she can get. This would leave Mesopotamia, between the Euphrates and Persia, a country sparsely inhabited by Arabs, for one of the other powers, perhaps England. England might get a share of the territory along the east coast of the Red sea, and it would be a valuable acquisition to her holdings in Egypt and Africa.

That part of European Turkey not fancied by Russia is wanted by both

Austria and Italy, but if they had to divide the territory neither of them would agree that Russia should have the most valuable part, that running along the Sea of Marmora and including both sides of the Bosphorus and Constantinople.

All that Greece expects to get is the island of Crete or Candia, and that will very probably be her share of the spoils. Germany has little or no legitimate claim to any of the Turkish territory, but as her ministers are acting in concert with the Russian statesmen in the matter, she will certainly get some share.

England, with as many natural claims as the others, seems to be the least considered, and her isolation among the great European powers is accountable for this. Until recently Italy was about her only friend, and Italy has joined Germany, France and Russia because of the success of the latter in ending the Abyssinian campaign, and also for the czar's assistance in making the match between Helen of Montenegro and the Prince of Naples.

Changing the map of Europe is lightly spoken of at times, but the literal act is matter of deep importance and intricate care.

Signs of the Approach of War.

LONDON, Nov. 2.—A dispatch to the Daily Mail from Constantinople says: It is rumored that the Armenians have decided to poison the water supply, and the authorities are taking rigid precautions. Panics are of daily occurrence. The masses regard the increase in the price of bread as a sign of the approach of war. The bitterest strife exists among the ministers at Yildiz Kiosh. There are rumors of the arrests of ministers and officials. The sultan's only supporters now are Hassan Pasha and Rifa Pasha.

AMONG THE ICEBERGS.

The American Bark Serene Has Returned From the Frozen North.

PHILADELPHIA, Nov. 2.—The American bark Serene, Captain Anderson, after over six months' battle in the frozen north, came into port from Ivigtut, Greenland, with a cargo of kyllite, bringing tidings of the complete destruction of the British bark Argenta, which was crushed by the ice.

She has on board part of the crew of the Argenta, Mate C. E. Johnson, Second Mate Alexander McLeod and Seamen Oxel Hombre, William Heathford, Joseph Carroll and August Eriksen. Captain Smith and the rest of the crew of the lost vessel are due here tomorrow on board the bark Sillicon, from Ivigtut.

For days and nights, with scarcely any food to nourish their worn-out bodies, the crew camped on the bleak coast of Greenland at Avegaft. It was bitter cold, and a dreary rain and heavy gale rendered their further existence at this locality impossible. The camp in which the men spent many dreary hours until sufficiently recovered to proceed on foot over the glacier, was made from an old sail pitched to two oars, which were made fast in the ground.

It was on the morning of Aug. 20 that they reached this place. They remained there until the night of the 21st, being completely exhausted, having tramped over the ice floes for three miles from the position in which their vessel was crushed. Two days later a second attempt was made to reach Frederickshaab and they succeeded in reaching there after skirting bergs and floes for miles.

Part of the time they climbed over the ice, hauling with them their boat and part of the time they rowed.

Mate Johnson says that they had scant provisions and no bread. They managed to get on all right and were aided by the Danish settlers wherever fallen in with on their journey toward Nasalik.

FURTHER FLOODS IN FRANCE.

Enormous Damage Has Been Done to Property but No Lives Lost.

PARIS, Nov. 2.—Telegrams received from the departments bring news of further floods and of alarming rise in the rivers. Enormous damage to property has been done, but no fatality has yet been reported.

The river Seine is still rising and is at the flood stage. The authorities have despatched to Comps and to Vallabregues the artillery wagons from Nîmes in order to assist in the work of relief.

The river Rhone has burst its banks at Lanson, which is now isolated. The only communication through considerable districts is by boat. Troops have left Avignon to assist in repairing the broken banks of the Rhone.

Floods in Sicily.

ROME, Nov. 2.—Severe floods were reported to have occurred in Sicily. The country around Palermo is inundated and three persons have been drowned.

POLITICAL QUARRELS.

Three Men Dead the Result of One Night's Demonstration.

WILKESBARRE, Pa., Nov. 2.—Both political parties had demonstrations in the mining town of Duryea Saturday night, and excitement ran high. There were many quarrels between the opposing forces. Frank Brousski, a Polish Republican, quarreled with some of his countrymen. Yesterday his dead body was found in a ditch. The skull had been crushed in. His assailants had evidently used a heavy club.

John Luby and Andrew Drotski, Slavs, fought in a barroom. Luby drew a big knife and stabbed Drotski in the abdomen. He died last night. Seized with remorse, Luby drew the knife across his own throat. The floor of the barroom was a sea of blood.

LETTER FROM CUBA.

Light Thrown Upon Recent Occurrences on the Island.

ESPECIALLY IN PINAR DEL RIO

General Maceo Has Not Attempted to Reach Havana Province and Has Not Crossed the Famous Trocha—His Bombardment of Artimesa—Consul General Lee Sails For the United States.

PHILADELPHIA, Nov. 2.—Private letters just received in this city from Havana throw light upon recent events in the island of Cuba. One letter in particular deals with late occurrences in Pinar del Rio, and gives a very hopeful view of the present Cuban situation. This letter says that Antonio Maceo has not attempted to reach Havana province, and although he made an attack upon the city of Artimesa, which was partially destroyed, he did not endeavor to force a passage of the famous trocha.

On the other hand, it is stated in the communication, which is from Captain Degardo, who recently was in this city and who is an officer of General Maceo's staff, that the rebel army in Pinar del Rio province is not desirous of making war in Havana and Matanzas at this time. Both of these provinces are comparatively low and flat, and the effect of the copious rains upon the soil is still detrimental to the proper handling of an army.

The letter reads: "To be with the Cuban army in Pinar del Rio does not mean that one is entirely cut off from communication with the outside world.

The mail system of the republic is not in operation in this province, but the carriers of our command reach Havana as regularly as do trains in the Grand Central station of New York.

"Among the accounts that furnished us with the most amusement was that published in the Diario de la Marina, concerning an attack upon Artimesa a few days ago. I hear that the same account was sent to the United States and published as authentic news. Still, after my visit to New York, Philadelphia and Washington I feel that the readers of American papers have learned to discern the difference between Spanish and Cuban news.

"At Artimesa the fight was well carried on, and some of our heavy guns were used to splendid advantage. We did not attempt to pass the trocha, for it was not a part of General Maceo's program.

"Artimesa was quite strongly entrenched, and over 4,000 men were there garrisoned. Maceo did not attack with his entire force, but desired to give practice to the artillery. The enemy was amazed, I am sure, for during nearly two hours' time there was no response from the town.

"General Maceo personally directed the attack. We retired in good order about midnight, after the artillery of the enemy had shelled our position. I do not know the enemy's loss, but our killed numbered 80.

"We left no dead on the field, but carried all the bodies away. Among the killed was Major Perez.

"Maceo's force does not now amount to so much cavalry, but it has been increased over 2,800 since the arrival of the two expeditions."

Consul General Lee Sails From Havana.

HAVANA, Nov. 2.—United States Consul General Fitzhugh Lee and his secretary, Mr. Jones, sailed for New York yesterday on board the steamer Vigilancia. The steamship was accompanied out of the harbor by the steam launch Zaldo having on board United States Vice Consul General Joseph A. Springer, Dr. Burgess and Charles Todd, employees of the consulate, and other friends of General Lee and representatives of American newspapers. General Lee remained in his state room.

How Spain Feels Toward America.

LONDON, Nov. 2.—Jeanne Nuola, the American singer, by the desire of the Infanta Eulalia, was engaged for the winter season at the Madrid Opera House, but the contract, she has been notified, has been canceled, owing to the irritation in Spain against the United States for the alleged support given the insurgents in Cuba. The director of the opera house said: "If an American sang under the patronage of the court, it would lead to a demonstration against the royal family."

POWERS FOUND DEMENTED.

He Was Manager of the Cuban Relief Bureau in Chicago.

CHICAGO, Nov. 2.—Albert D. Powers, manager of the Cuban Relief bureau of this city, has been found demented in Tennessee. News of his discovery was telegraphed to the Chicago police yesterday by Colonel J. D. Powers of Owensboro, Ky., father of the man whose disappearance from Chicago a month ago mystified alike the police and friends of the missing manager. Colonel Powers' telegram contained no details of his son's condition or wanderings and does not name the city in which he was found.

The disappearance of young Powers just as the launching of the ambitious project of the Cuban relief bureau gave rise to a belief at first that he had been murdered.

Colonel J. D. Powers, father of the young man, is the president of the First National bank of Owensboro, Ky.

"Democrats, the fight for the silver dollar is more than forty years old. We won it once against the national banks, under the lead of Old Hickory, and by his bones we'll win it again."—John M. Palmer in a speech in January, 1878.

DEMOCRATIC TICKET.

President,
WILLIAM JENNINGS BRYAN,
of Nebraska.
Vice President,
ARTHUR SEAVALL,
of Maine.
Congress,
W. LARUE THOMAS,
of Mason.

HOW TO VOTE.

Put the X just under the rooster's feet and inside the square, and your vote will be counted for Bryan, Thomas, 16 to 1 and American finances for America, regardless of the wishes of any foreign nation.

A WORD TO VOTERS.

It is reported that Republicans will endeavor to bribe opposition voters to remain away from the polls to-morrow. At Augusta it is learned one man has been offered as high as \$20 not to vote.

In view of all this, no one can afford to remain away from the polls. If any one fails to vote, he raises the suspicion that he has bartered away his right of suffrage. His neighbors will know whether he has any good excuse for not voting.

DEMOCRATS, SEE THAT YOUR FULL VOTE IS POLLED.

The stay-at-home vote in Kentucky a year ago was largely responsible for the Democratic defeat, and Mason County contributed her portion, we regret to say, of these stay-at-homes.

Let us be warned by the past.

Let every Democratic vote in Mason County be polled to-morrow.

Democratic Committeemen and Democratic clubs throughout the county should make special efforts to get out the vote.

This is a duty you owe your party and your country.

A full vote means a Democratic victory. See that it is polled.

Let every Democrat do his full duty.

ILLEGAL REGISTRATION.

The Democratic Committees are in possession of evidence showing that quite a number of young men of this city who are not yet of age have registered as legal voters. Some of them lack two or three years of the age entitling them to vote.

The law provides a heavy penalty for illegal registration, and steps will likely be taken to prosecute them. At any rate if they attempt to vote to-morrow they will be challenged, and if they do vote, then they will be prosecuted to the full extent of the law.

It is but just to add that most of these illegally registered persons are young colored men who are probably not aware of the fact that they have thus subjected themselves to a severe penalty.

INFAMOUS TACTICS.

Certain Republicans in this city who never fail to vote their party ticket straight are industriously circulating reports in their desperate efforts to trick some Democrats into voting for Judge Pugh.

These reports are absolutely false.

There is not a word of truth in them, and the Republicans who are circulating them know it.

It is simply a trick of theirs to catch some Democratic votes.

It is a trick they worked a year and two years ago.

No Democrat will allow himself to be bamboozled by a lot of infamous Republican tricks.

If these Republicans should prove successful in their scheme, they will laugh in your face the day after the election and say, "Didn't we fool 'em easily!"

Vote the straight Democratic ticket and teach these Republicans that you are not to be caught by their schemes.

READ THESE FIGURES.

Those States that are regarded as certain to vote for free silver to-morrow produce all our gold, silver and cotton; they produce 67 per cent. of all the corn of the country; 62 per cent. of the wheat; 68 per cent. of the barley and 71 per cent. of the oats.

Mortgage debt on the farms, \$6,019,679,985; amount of public debt, \$17,174,879,990; amount of money in the United States, including gold, silver and paper, \$1,604,138,968. Value of farm products: Gold States, \$418,309,066; silver States, \$2,041,798,488.

Here are figures that tell no lies. They are worthy of careful consideration and study. The silver States are the producers of the nation's wealth and products. The gold States control this vast wealth. Shall they use it to rule and oppress the source of the country's commercial and financial greatness, or shall the industrious producers say what shall be the country's financial policy? This is the vital question at issue.

Vote to-morrow for an American system of finance.

JUDGE GEORGE MORGAN THOMAS, the Republican boss, and his clique a year ago are credited with saying that Editor Davis "had no more influence in Mason County than a brass monkey at an elephant show." Of course Mr. Davis and his friends all turned out to hear the boss at the Republican meeting Saturday night.

IF THE DEMOCRATS OF MASON COUNTY EXPECT THE PARTY TO HONOR ANY OF THEIR LEADERS HEREAFTER, THEY MUST DEMONSTRATE THEY ARE TRUE BLUES BY ROLLING UP A NICE MAJORITY NEXT TUESDAY FOR LARUE THOMAS. THEY CAN DO IT IF THEY WILL GET OUT THE VOTE. LET EVERY MAN DO HIS DUTY.

HOW CAN THE DEMOCRATS OF MASON COUNTY EVER EXPECT THE DISTRICT TO HONOR ANY OF THEIR LEADERS HEREAFTER, IF THEY FAIL TO ROLL UP A HANDSOME MAJORITY NEXT TUESDAY FOR THEIR NOMINEE?

PITHY POLITICAL POINTS.

The Demonetization of Silver Was An Enlarged "Confidence Game" Worked on the American People.

The demonetization of silver was only an enlarged "confidence game."

The gold standard swindle and the gold brick swindle are birds of a feather.

The demonetization of silver was in no sense more honest than is the gold brick game.

The gold standard men and the gold brick men are all actuated by one impulse—the greed of gold.

The gold standard business is not a whit more legitimate than the old-fashioned confidence game.

The demonetization of silver brought the nose of the farmer to the grindstone and elevated the nose of the millionaire.

Three card monte in its palmest days on the Illinois Central Railroad and the Mississippi river never was any more tricky than was the demonetization of silver.

The demonetization of silver was a gigantic "confidence game" played on hundreds of thousands of farmers, merchants and others, by which they were robbed of millions of dollars.

The Republicans who are supporting Mr. McKinley, the professed gold man, are no more loyal to him in his new role than they were while he was the avowed advocate and supporter of a free coinage measure.

Both Mr. Carlisle and Mr. Breckinridge, after having gone back on all the proclivities, antecedents and traditions of Democratic faith and fealty, now affect to think that they have been terribly misjudged and ill treated at the hands of the party.

Mr. McKinley doubtless would be far from playing any part in a gold brick swindle or confidence game; yet by his own utterances of a short time since he is now engaged in a much more gigantic swindle in his advocacy of the gold business.

It isn't very strange that the party that is responsible for all the trusts, syndicates, monopolies, etc., and whose Presidential candidate has no word of condemnation for such, should be found claiming a monopoly of all the brains and intelligence on the great question of the day.

The demonetization of silver has made it barely possible for the farmer's daughter to wear calico. While the millionaire's gold has been so appreciated thereby that impetuous and worthless foreign noblemen (?) are heading this way in larger numbers than ever to take advantage of the situation by securing wives with plethoric purses and arrayed in silks and satins.

There is no joy in this world equal to the happiness of motherhood. A woman's health is her dearest possession. Good looks, good times, happiness, love and its continuance, depends on her health. Almost all of the sickness of women is traceable directly or indirectly to some derangement of the organs distinctly feminine. Troubles of this kind are often neglected because a very natural and proper modesty keeps women away from physicians, whose insistence upon examination and local treatment is generally as useless as it is common. Dr. Pierce's Favorite Prescription will do more for them than 99 doctors in 10. It will do more than the hundredth doctor can unless he prescribes it. It is a prescription of Dr. R. V. Pierce, who for 30 years has been chief consulting physician of the World's Dispensary and Invalids' Hotel, at Buffalo, N. Y.

Boils

It is often difficult to convince people their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or when there is any indication of

Impure

blood, to take Hood's Sarsaparilla, and prevent such eruptions and suffering.

"I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor attended me over seven weeks. When the abscess broke, the pains were terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it, and my husband, who was suffering with boils, took it also. It soon purified our

ATTENTION, BRYAN CLUBS.

Your Grand Leader Asks All of You to Give the Whole Day Tuesday to the Cause.

In the course of his speech at Marshalltown, Iowa, Mr. Bryan said:

"We have to depend largely upon clubs to carry this election. I think that the club is of more importance in this campaign than it has been in recent years. The silver clubs must do much on our side to offset the club that employers hold over their employees. [Cheers.] If some foreign enemy were to approach our shores I could go among these people and could enlist those who would be willing to devote not a day, but months and even years to repel the invaders. To-day we are in the presence of the invasion, not of a foreign enemy, but of a foreign financial policy."

"I want to ask the silver clubs of Iowa as I have already asked the silver clubs throughout the United States, to do one thing that will prove their loyalty and aid our cause. We are making a poor man's fight. We have no money even for legitimate campaign expenses; but my friends, we have zeal on every side, and zeal is worth more than dollars in such a fight."

"I want to ask the free silver clubs in Iowa and every silver club in the United States to meet at the polling place on election morning and give the whole day to work for free silver. [Applause.] More than that, we are not able to hire carriages as plentifully as our opponents, and I want to ask the members of the silver clubs to go to the polls with their wagons and their buggies and their carriages, so that we will have vehicles there to bring to the polls any persons who are not able to come without aid."

TRAIN OF PLOWS.

Oliver Will Send More of 'Em If Bryan's Elected.

BUTLER, IND., Oct. 31.—The people of Northern Indiana along the Lake Shore Road were surprised to-day to see a long train of cars loaded with plows pass through here from the Oliver Steel Plow Works, of South Bend, Ind., decorated with flags and streamers for Bryan and free silver. Mr. Oliver discovered some time ago that the free coinage of silver would raise the price of farm products, and, as that would benefit him, has been doing his best to secure the election of Bryan.

Mr. Dearing's Colored Band.

A week ago, serious trouble was narrowly averted at Flemingsburg by a colored band interfering with a Democratic speaking.

The band was followed by Judge Pugh and W. G. Dearing. The people were so indignant over the occurrence that Mr. Dearing finally came out in a card saying he had instructed the band not to stop near the meeting.

The Times-Democrat is out in an extra to-day with affidavits from members of the band directly contradicting Mr. Dearing, and saying that the stop was made under his orders.

The Central Hotel has in its office a railroad time card ornamented with a beautiful bit of scenery. It is the work of Miss Lela Hamilton, of East Second street, and demonstrates clearly her ability as an artist.

THE COLORED VOTERS.

Without Their Help, the Republicans Would Not Be In It Anywhere in Kentucky.

The colored voters are very indignant. Not one of them was trusted to distribute the "pie" that came in Saturday. If they do not watch out they will get little of the "pie," and the ward heeler will sink it all, or claim it for his influence.

Three hundred and sixty-four days in the year the colored man relies upon the white Democrat to give him employment. One day in the year the white Republican is intimate with him, and gets his vote, and half the time he does not give the colored man his share of the campaign money.

Nearly every office in Mason County is filled by a Republican, elected by the votes of the colored man. All the State officers are Republicans, elected by the colored vote. Can you point to a single office given to the colored man? No wonder the negroes were slaves. They are still slaves to the Republican party.

Business First—Politics After.

At Millersburg Henry Phillips has the following placard posted up in his drug store:

How Do the Negroes Like It?

In the Republican parade Saturday night one of the transparencies had inscribed on it the following: "The negro is not for sale this time."

The fellow who carried this transparency didn't seem to catch on to the fact that it was an insult to every honest colored man. Indirectly, it said the negro is generally for sale.

ENTHUSIASTIC.

Large Crowds Greeted LaRue Thomas at Plumville and Orangeburg.

The Democratic Standard Bearer Receives Perfect Ovation at His Closing Meetings.

The BULLETIN's Springdale correspondent says: "The most enthusiastic meeting ever held in these parts was the gathering at Plumville to hear our next Congressman, W. LaRue Thomas, speak last Friday afternoon.

"About 100 went out to meet him on horseback and in carriages and gave him such a welcome right here in this Republican hotbed as few, if any, ever had received.

"Mr. Thomas was escorted from Cabin Creek to the residence of Dr. Outten in Plumville where they met about 400 more.

"There was a Bryan and Thomas pole raising after which Mr. Thomas spoke for about an hour amid the wildest applause. At the close every one tried to get to shake hands with one of our lawmakers.

"One Republican in the crowd was heard to say, 'I thought most of the people were for protection, I didn't know there were so many free silverites.'

"Well, we are for protection and just the kind W. LaRue Thomas will give us, when he goes to Washington with W. J. Bryan."

Mr. Thomas made his closing speech of the campaign at Orangeburg Friday. The crowd that greeted him was one of the largest that ever assembled at that point. An interesting program had been arranged and it was carried out with great success. Democracy's gallant standard-bearer was accorded an enthusiastic welcome, and his speech was received with cheers. It was a fitting close of the earnest fight he has made.

The Men's Rally Sunday Afternoon Addressed by Mr. Wilcox, of Frankfort—Program Next Sunday.

Those who attended the men's rally at the association hall yesterday afternoon enjoyed an excellent musical program and an impressive address which will long be remembered.

The rally was conducted by Professor W. T. Berry, a member of the newly organized religious committee, assisted by Mr. H. C. Curran, who had charge of the singing. Everyone seemed to enter heartily into the opening song service, following which a vocal solo, "The Holy City," by Mr. Torrence, of Ripley, Ohio, and a trio by Messrs. Torrence, Chunn and Curran, accompanied by Mr. R. L. Hofflich, organist, and the flute played by Mr. Lee B. Gray, were enjoyed by the men present.

Reference to the coming election, and the important obligations resting upon every voter was made, and after the singing of our National hymn, "America," a brief prayer asking for Providential guidance and protection was offered by Secretary B. B. Wilcox, of the Frankfort association. "What Do I Most Desire in Life," was the general theme of a most pleasing address then given by Mr. Wilcox, whose conversational manner of speaking served not only to secure the close attention of his hearers, but also to deeply impress them with the practical thoughts suggested. After the service Mr. Wilcox was warmly greeted by the young men.

By special invitation, Mr. Wilcox also spoke last evening at the young people's meeting in the Baptist Church and at the West End Mission.

The committee will plan to make the rally next Sunday one of exceptional interest, it being the day of prayer for young men of all lands, observed by associations throughout the country. The general theme will be: "The special work for young men accomplished by the Y. M. C. A.," and a number of association members will speak briefly of the college, railroad and other departments of association work. Something good also in the way of special music will be provided.

THE Catholics of this city were out in large numbers yesterday, decorating the graves of their beloved dead, laid to rest in Washington, the occasion being All Saints' Day, a day celebrated by the Catholic Church all over the world. THE body of a tramp was found lying by the side of the C. and O. Railroad near Limeville Wednesday morning. His head was crushed into a shapeless mass where the wheels of a car had passed over it and the body is supposed to be that of some hobo who fell from a freight train. The body was taken to Greenup and an inquest held, but there was nothing on it that could lead to identification.

CYNTHIANA Democrat: "Judge Pugh at the opera house in this city last Friday night, accomplished the wonderful feat of speaking for about two hours without once referring to the Republican platform, upon which he is supposed to stand. His entire speech was a sop thrown out to the gold standard Democrats in the hope of catching their votes. He may land a few but it is believed that the majority of them will vote for Thomas."

AUGUSTA REPUBLICANS.

They Tried to Prevent a Democratic Speech Thursday Afternoon, but Didn't Succeed.

Well! well!! well!!!

How the Republicans showed themselves down at Augusta Thursday afternoon was enough. Everybody down there from the youngest schoolboy to the oldest man is ready to tell how it happened. It was like this:

Hon. Walter S. Roberts, of Knoxville, was billed for a joint discussion there with the Hon. M. N. Curry, of Indiana. Mr. Roberts understood that the date was made for Wednesday and appeared on the scene promptly, when he found that he was a day too soon. He went over to Brooksville and gave them a speech that night and came back to Augusta Thursday, ready for battle.

Mr. Curry took the floor first and proceeded to curry the "Popocrats." Nit. He told all about how it happened, said that the cause of hard times was a "lack of confidence" and not the scarcity of money and dored out such stuff to the people for two and a half hours, which was all of the time that was allotted to both speakers.

After he had finished his talk Dr. Faber dismissed the audience, without recognizing Mr. Roberts at all.

But Mr. R. did not need his recognition. After the most of the gold bugs had retired (and that was not half of the audience by any means), Mr. Roberts gave one of the best talks that has been given in Augusta during the campaign. And may be he didn't roast the "Indiana Jehu" and his colleagues.

How different was the disposition of gold-bugs toward Mr. Roberts from that of Hon. LaRue Thomas toward his opponent, Judge Pugh, when they were at Augusta. After Mr. Thomas had finished his speech, when they were engaged in a joint discussion, about half the audience began to retire. Mr. Thomas stepped out on the stage and cried, "I beg of you not to do this—show my friend Mr. Pugh the respect he deserves."

The way the Republicans acted Thursday, no doubt made the Democracy many votes.

POINTS FOR ELECTION OFFICERS.

Important Decision of the Court of Appeals As to Certain Ballots—How to Mark Your Ticket.

The Court of Appeals, in a decision last January, holds that the Canvassing Board, composed of the County Judge, Sheriff and County Clerk, must examine and count or reject all the uncounted and doubtful ballots returned by the election officers, and must not be governed exclusively by certificate of the officers in counting the votes cast.

The next point decided is that a ballot marked with a lead pencil instead of with ink and stencil is valid and must be counted, and further, that marks, blurs or blots on the ballot that appear to be accidental are such distinguishing marks as will invalidate the ballot. If the stencil mark should be made just outside the square that contains the party device or just outside the little square opposite any one candidate's name, it does not invalidate the ballot and it should be counted, that is if the mark is near enough to the device or square to leave no doubt as to the voter's intention.

In order to vote a straight ticket, all that is necessary is to mark a cross just under your party emblem, and inside the square enclosing the emblem. If you wish to vote for a candidate on any other party's ticket, mark a cross under your own party emblem as above, and then mark another cross in the small square at the right of the candidate's name on the other ticket for whom you wish to vote.

Condensed Testimony.

Chas. B. Hood, Broker and Manufacturer's agent, Columbus, Ohio, certifies Dr. King's New Discovery has no equal as a cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a cough of two years standing, cause by la grippe, by Dr. King's New Discovery. E. F. Merrill, Baldwinsville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves. Free trials bottles at J. James Wood's drug store.

RED MEN.

The Augusta Tribe Celebrates Its Anniversary With a Trail and Banquet.

The Red Men of Augusta treated themselves to the most successful banquet Thursday night that has ever been given by them. They were celebrating their first anniversary and there is not very many lodges in a town the size of Augusta that can boast of as many members as this one.

The trail was a perfect success. It was participated in by forty-eight chiefs on horseback, who were dressed in their war paint and armed with scalping knives and tomahawks.

They took a march through the town in search of a pale face and found him in the person of Mr. Otto Sisson. His scalp was taken and left bleeding on the street, while they went off to destroy the venison at the city hall.

Everything was a success, the town was alive with people, and all well pleased with what they saw.

ONLY "VETS"

In This Big Silver Club Formed at Lima, Republicans in Dismay.

LIMA, OHIO, October 27.—Republican leaders here are greatly dismayed at the attitude of the veterans of the late war in the present political struggle, which resulted to-night in the organization of a big Bryan silver club, composed exclusively of veterans. The Republicans also had a similar meeting called for to-night, but the attendance was not over a dozen and but little or no enthusiasm was manifested, while the Bryan Silver club's gathering was most enthusiastic and outnumbered the Republican meeting at least ten to one.

Nearly 100 names were placed on the roll of membership, every signature being that of a veteran who did actual service for his country in putting down the War of the Rebellion. Hon. S. S. Yoder was present and being a veteran himself, made an address which was frequently interrupted by applause from his comrades.

He was interrupted by cheers whenever he mentioned Bryan's name. The formation of the club will insure hundreds of votes for Bryan which the Republicans have heretofore counted solid for McKinley.

For Bryan.

The palatial steamer Island Queen brought up 2,000 excursionists from Cincinnati yesterday, reaching here at 5:30. The crowd were cheering wildly for Bryan, and a member of the crew stated that the party were almost unanimous for the people's great leader.

THE polls close at 4 p. m. to-morrow. Democrats should vote early.

COUNTY CULLINGS.

Items Picked Up by the Bulletin's Correspondents in Mason and Elsewhere.

GERMANTOWN.

Dan Lloyd and bride are at home.
Mrs. Jennie Coburn was visiting friends at Vanceburg last week.

Messrs. Patterson and Coburn are laying a new sidewalk in front of their business house.

Mr. Bell and family are the guests of A. Williams. Several of our young men will regret their departure.

On Wednesday morning, at the residence of Rev. Bird Hughes, Mr. Jas. Striker, of Mason, was married to Miss Howard, of Bracken.

On Wednesday morning at St. James Church in Brookville, Rev. Father Cusack united in marriage two of Mason County's most worthy young people—Mr. Jas. E. Molloy and Miss Bettie Donovan. A great many young people from here were present. Dr. John Molloy, of Covington, was also present at the wedding.

Saturday afternoon, October 24th, Hon. W. A. Byrro, of Brookville, and Mr. Ogdon, of Milford, addressed a large and attentive audience on the political issues of the day. On Wednesday the true and loyal Democratic standard-bearer of the Ninth Congressional district, the Hon. W. L. Thomas, addressed a large concourse of people, laying before them his desires and his claims to a seat in the next Congressional assembly. He explained the platforms of the parties in a clear and concise manner, thereby scoring a great victory for himself and his party. The words of each speaker were like "bread cast upon the waters" which, after many days will return.

Ever and anon the words of the great poet Scott—

"Breathes there a man with soul so dead
Who never to himself hath said,
This is my own, my native land?"

recur to us with redoubled force. Lives there a man within the bounds of the Germantown precinct who is more affiliated to the Republican party than he is to his home, his family and his posterity? Rise, ye sluggards, and look to your own interests, be not blinded by the hollow babble of your leaders,—but listen to reason and judgment. Truly there are none so blind as those who won't see. Ah! ye of little faith, for the love of your homes and your families, lay aside your prejudice and look at this question from an unbiased standpoint and do that which seemeth right. Do you mean that this great and mighty people are not competent to manage our national affairs without the assistance and consent of England, that we shall be the subjects and England their ruler. God forbid. My face would burn with the tinge of shame for the man who would acknowledge or submit to such a thing. Let us arise in the strength of our manhood and say to the wily schemers, the great monopolies, syndicates and trusts, that we will not be subservient to their will. Neither will we be blinded or deceived by their rhetorical flowers, nor coerced by their threats. Let us be not like the heathen God "Baal" with eyes to see and see not, ears to hear and hear not. But come forward in all the strength and honor of American manhood and record your vote for W. J. Bryan, that "Rock of Gibraltar," the truest and bravest of American citizens, the man of destiny whom God brought out of the West, out of obscurity to deliver us out of the hands of the enemy, from the hirelings of England and Huns. Not only elect Bryan as our President, but give him Thomas in the Congressional hall to hold up his hands.

ATTEMPT TO ROB A POSTOFFICE.

The Burglars Scared Away by the Loud Report of the Explosion.

WILKESBARRE, Pa., Nov. 2.—A daring attempt was made early Sunday morning to rob the postoffice at Plymouth. The door of the big safe was blown off with such force that it shook the surrounding buildings. People living in the vicinity thought an earthquake had occurred, and they hastily dressed and came on the streets. Smoke was seen coming from the postoffice, and the fire department was called out. It was found that sparks from the powder had set fire to the mail bags. The flames were soon extinguished.

Postmaster Calary upon his arrival found all the valuables in the safe untouched. The robbers evidently got scared at the loud report and fled. No arrests have been made as yet. An hour after the explosion a closed carriage was seen going at a breakneck speed in the direction of Pittston.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

About seven weeks ago a man living near by heard two shots fired, and in a few minutes a man carrying a shotgun crossed the road running from the place. In midsummer John Billman drew \$300 out of bank and disappeared, and it is believed by many that this is his body.
